ABOUT

Enthusiastic and detail-oriented front-end developer with a strong foundation in HTML, CSS, and JavaScript. Proficient in creating responsive and visually appealing web applications. Familiar with modern frameworks like Tailwind CSS and Bootstrap, with hands-on experience in building projects such as Amazon and Spotify clones. I am passionate about translating designs into clean, functional code and continuously learning new web technologies. I am eager to contribute to a dynamic team and grow in a professional development environment.

PROJECTS

❖ Employee Management System (React.js)

Developed a **React.js-based Employee Management System** with an **admin panel** for task assignment. Admins can assign tasks to employees, which are displayed on their dashboards. Employees can update task statuses (completed or pending), and changes reflect in real-time on the admin dashboard.

Implemented **CRUD operations** with **Local Storage** for data persistence and managed state using **React Hooks**.

Designed a **fully responsive UI** with **Tailwind CSS**, ensuring a seamless user experience.

Tech Stack: React.js, Tailwind CSS, JavaScript, HTML, Local Storage.

❖ Amazon & Spotify Clone

Developed responsive **Amazon and Spotify clones** using **HTML and CSS**, replicating their UI/UX design with pixel-perfect accuracy. Focused on modern web design principles, including **flexbox, grid layouts, and responsive design**, to ensure cross-device compatibility. Implemented structured and reusable **CSS components** to enhance maintainability and scalability. This project demonstrates expertise in front-end development, UI design, and attention to detail in recreating real-world platforms.

Tech Stack: HTML, CSS, Responsive Design, Flexbox, Grid.
