Github: <https://github.com/ASIFRAZA1415>

Enthusiastic and detail-oriented front-end developer with a strong foundation in HTML, CSS, and JavaScript. Proficient in creating responsive and visually appealing web applications. Familiar with modern frameworks like Tailwind CSS and Bootstrap, with hands-on experience in building projects such as Amazon and Spotify clones. I am passionate about translating designs into clean, functional code and continuously learning new web technologies. I am eager to contribute to a dynamic team and grow in a professional development environment.

## Skills

- Programming Languages: JavaScript.
- Web Development: React.js, Next.js, HTML5, CSS3, Tailwind CSS, API Integration
- Frameworks and Technologies: React.js, API Integration,
- Development Tools & Frameworks: Postman, Git, GitHub, VS Code,
- Soft Skills: Communication Skills, Analytical Thinking, Creativity, Problem Solving, Teamwork.
- Other: Responsive Design, UI Optimization, Web Performance, Cross-browser Compatibility

## Experience

### 1. Front-End Developer (Project-Based Experience)

Self -Projects | Remote | 2025 – Present

- Developed responsive and modern web applications using React.js and Next.js.
- Built and deployed the X-lent Institute official website (live business project)  
 [www.xlentinstitute.com](http://www.xlentinstitute.com)
- Created Employee Management System with admin panel and task tracking.
- Implemented reusable components and optimized UI performance.
- Maintained code using GitHub version control.

### 2. Front-End Developer (Project-Based Experience)

Self -Projects | Remote | 2025 – Present

I built a professional personal portfolio website using Next.js, React.js, Tailwind CSS, and Framer Motion to showcase my projects, skills, and development work. The website includes dark/light mode, smooth animations, and a fully responsive design, serving as my online professional profile for recruiters.

Live Portfolio: <https://portfolio-asif-hussain.vercel.app/>

## Projects

### 1. X-lent Institute Website (Live Project)

**Tech Stack:** Next.js, Tailwind CSS

**Live:** [www.xlentinstitute.com](http://www.xlentinstitute.com)

Designed and developed a complete educational institute website with a modern and responsive user interface. The website includes structured course listings, inquiry and contact form integration, and mobile-first design to ensure better accessibility across devices. Built component-based architecture for easier future upgrades and ensured performance optimization with a clean UI and basic SEO structure. The project demonstrates real-world business website development experience.

### 2. Employee Management System

**Tech Stack:** React.js, Tailwind CSS, Local Storage

Developed a web-based Employee Management System featuring both admin and employee modules. Implemented task assignment by admin and task status updates by employees. Integrated CRUD functionality for employee records and managed application state using React Hooks. Focused on scalable component structure and responsive UI using Tailwind CSS. This project reflects real-world workflow simulation and frontend system design capability.

### 3. Portfolio Website

**Tech Stack:** Next.js, React.js, Tailwind CSS, Framer Motion

Created a personal portfolio website to showcase skills and projects in a professional layout. Implemented dark and light mode UI with smooth animations using Framer Motion. Designed interactive sections for projects and profile to give recruiters a strong visual overview of capabilities. This project highlights modern UI design, animation handling, and deployment skills.

## Certifications

**Web Development Course in Sheryian's Coding School (2025)**

**German Language in St. Stephen's College, Delhi (2021)**

## Declaration

**I hereby declare that the above particulars furnished by me are true to the best of my knowledge and belief.**

## Personal Dossier

**NATIONALITY:** Indian

**LINGUISTIC ABILITIES:** English, Hindi.
